Nuestros viñedos
Situados en Campo de Criptana (Ciudad Real), una de las mayores zonas vitivinícolas de España, con más de 16.000 hectáreas de viñedo.

The continental climate
With cold winters, hot summers, and low rainfall, allows for optimal grape ripening, enhancing aromatic intensity and structure.

El clima continental,
con inviernos fríos, veranos calurosos y escasas precipitaciones, favorece una maduración óptima de la uva, potenciando la intensidad aromática.

The soils
Rich in limestone with sandy and clay loam textures, provide balance and character to the wines.

Los suelos
Ricos en caliza y con texturas franco-arenosas y arcillosas, aportan equilibrio y carácter a los vinos.

We cultivate both white varieties such as Airén, Verdejo, Macabeo, Sauvignon Blanc, and Chardonnay, and red varieties including Tempranillo, Garnacha, Cabernet Sauvignon, Syrah,
and Petit Verdot.
